

PRODUCT SPECIFICATION

Product Name Anti-CPA1 Product Number AMAb91433 Clone Number CL6607 Gene Description carboxypeptidase A1 Clonality Monoclonal Isotype IgG2b Host Mouse Purification Method Protein A purified Verified Species Reactivity Human Recommended Applications HC (Immunohistochemistry) - Antibody dilution: 1:5000 - 1:10000 - Retrieval method: HIER pH6 WB (Western Blot) - Working concentration: 1 μg/ml Characterization Data Available at atlasantibodies.com/products/AMAb91433 Buffer The antibodies are delivered in 40% glycerol and PBS (pH 7.2). 0.02% sodium azide is added as preservative. Concentration Lot dependent Storage Store at +4°C for short term storage. Long time storage is recommended at -20°C. Notes The antibody solution should be gently mixed before use. Optimal concentrations and conditions for each application should be determined by the user. For protocols, additional product information, such as images and references, see atlasantibodies.com.		
Clone Number Gene Description Carboxypeptidase A1 Clonality Monoclonal Isotype IgG2b Host Mouse Purification Method Verified Species Reactivity Recommended Applications IHC (Immunohistochemistry) - Antibody dilution: 1:5000 - 1:10000 - Retrieval method: HIER pH6 WB (Western Blot) - Working concentration: 1 µg/ml Characterization Data Buffer The antibodies are delivered in 40% glycerol and PBS (pH 7.2). 0.02% sodium azide is added as preservative. Concentration Storage Store at +4°C for short term storage. Long time storage is recommended at -20°C. The antibody solution should be gently mixed before use. Optimal concentrations and conditions for each application should be determined by the user. For protocols, additional product information, such as images and references, see	Product Name	Anti-CPA1
Gene Description carboxypeptidase A1 Clonality Monoclonal Isotype IgG2b Host Mouse Purification Method Protein A purified Verified Species Reactivity Recommended Applications - Antibody dilution: 1:5000 - 1:10000 - Retrieval method: HIER pH6 WB (Western Blot) - Working concentration: 1 µg/ml Characterization Data Available at atlasantibodies.com/products/AMAb91433 Buffer The antibodies are delivered in 40% glycerol and PBS (pH 7.2). 0.02% sodium azide is added as preservative. Concentration Storage Store at +4°C for short term storage. Long time storage is recommended at -20°C. Notes The antibody solution should be gently mixed before use. Optimal concentrations and conditions for each application should be determined by the user. For protocols, additional product information, such as images and references, see	Product Number	AMAb91433
Clonality Monoclonal Isotype IgG2b Host Mouse Purification Method Protein A purified Verified Species Reactivity Recommended Human Applications IHC (Immunohistochemistry) - Antibody dilution: 1:5000 - 1:10000 - Retrieval method: HIER pH6 WB (Western Blot) - Working concentration: 1 μg/ml Characterization Data Available at atlasantibodies.com/products/AMAb91433 Buffer The antibodies are delivered in 40% glycerol and PBS (pH 7.2). 0.02% sodium azide is added as preservative. Concentration Lot dependent Storage Store at +4°C for short term storage. Long time storage is recommended at -20°C. Notes The antibody solution should be gently mixed before use. Optimal concentrations and conditions for each application should be determined by the user. For protocols, additional product information, such as images and references, see	Clone Number	CL6607
Isotype IgG2b Host Mouse Purification Method Protein A purified Verified Species Reactivity Recommended Applications IHC (Immunohistochemistry) - Antibody dilution: 1:5000 - 1:10000 - Retrieval method: HIER pH6 WB (Western Blot) - Working concentration: 1 μg/ml Characterization Data Available at atlasantibodies.com/products/AMAb91433 Buffer The antibodies are delivered in 40% glycerol and PBS (pH 7.2). 0.02% sodium azide is added as preservative. Concentration Storage Store at +4°C for short term storage. Long time storage is recommended at -20°C. Notes The antibody solution should be gently mixed before use. Optimal concentrations and conditions for each application should be determined by the user. For protocols, additional product information, such as images and references, see	Gene Description	carboxypeptidase A1
Host Mouse Purification Method Protein A purified Verified Species Reactivity Human Recommended Applications IHC (Immunohistochemistry) - Antibody dilution: 1:5000 - 1:10000 - Retrieval method: HIER pH6 WB (Western Blot) - Working concentration: 1 μg/ml Characterization Data Available at atlasantibodies.com/products/AMAb91433 Buffer The antibodies are delivered in 40% glycerol and PBS (pH 7.2). 0.02% sodium azide is added as preservative. Concentration Lot dependent Storage Store at +4°C for short term storage. Long time storage is recommended at -20°C. Notes The antibody solution should be gently mixed before use. Optimal concentrations and conditions for each application should be determined by the user. For protocols, additional product information, such as images and references, see	Clonality	Monoclonal
Purification Method Verified Species Reactivity Recommended Applications IHC (Immunohistochemistry) - Antibody dilution: 1:5000 - 1:10000 - Retrieval method: HIER pH6 WB (Western Blot) - Working concentration: 1 μg/ml Characterization Data Available at atlasantibodies.com/products/AMAb91433 Buffer The antibodies are delivered in 40% glycerol and PBS (pH 7.2). 0.02% sodium azide is added as preservative. Concentration Storage Store at +4°C for short term storage. Long time storage is recommended at -20°C. Notes The antibody solution should be gently mixed before use. Optimal concentrations and conditions for each application should be determined by the user. For protocols, additional product information, such as images and references, see	Isotype	lgG2b
Verified Species Human Reactivity IHC (Immunohistochemistry) Applications - Antibody dilution: 1:5000 - 1:10000 - Retrieval method: HIER pH6 WB (Western Blot) - Working concentration: 1 μg/ml Characterization Data Available at atlasantibodies.com/products/AMAb91433 Buffer The antibodies are delivered in 40% glycerol and PBS (pH 7.2). 0.02% sodium azide is added as preservative. Concentration Lot dependent Storage Store at +4°C for short term storage. Long time storage is recommended at -20°C. Notes The antibody solution should be gently mixed before use. Optimal concentrations and conditions for each application should be determined by the user. For protocols, additional product information, such as images and references, see	Host	Mouse
Reactivity Recommended Applications IHC (Immunohistochemistry) - Antibody dilution: 1:5000 - 1:10000 - Retrieval method: HIER pH6 WB (Western Blot) - Working concentration: 1 μg/ml Characterization Data Available at atlasantibodies.com/products/AMAb91433 Buffer The antibodies are delivered in 40% glycerol and PBS (pH 7.2). 0.02% sodium azide is added as preservative. Concentration Lot dependent Storage Store at +4°C for short term storage. Long time storage is recommended at -20°C. Notes The antibody solution should be gently mixed before use. Optimal concentrations and conditions for each application should be determined by the user. For protocols, additional product information, such as images and references, see	Purification Method	Protein A purified
Applications - Antibody dilution: 1:5000 - 1:10000 - Retrieval method: HIER pH6 WB (Western Blot) - Working concentration: 1 μg/ml Characterization Data Available at atlasantibodies.com/products/AMAb91433 Buffer The antibodies are delivered in 40% glycerol and PBS (pH 7.2). 0.02% sodium azide is added as preservative. Concentration Lot dependent Storage Store at +4°C for short term storage. Long time storage is recommended at -20°C. Notes The antibody solution should be gently mixed before use. Optimal concentrations and conditions for each application should be determined by the user. For protocols, additional product information, such as images and references, see		Human
Buffer The antibodies are delivered in 40% glycerol and PBS (pH 7.2). 0.02% sodium azide is added as preservative. Concentration Lot dependent Storage Store at +4°C for short term storage. Long time storage is recommended at -20°C. Notes The antibody solution should be gently mixed before use. Optimal concentrations and conditions for each application should be determined by the user. For protocols, additional product information, such as images and references, see		- Antibody dilution: 1:5000 - 1:10000 - Retrieval method: HIER pH6 WB (Western Blot)
added as preservative. Concentration Storage Store at +4°C for short term storage. Long time storage is recommended at -20°C. Notes The antibody solution should be gently mixed before use. Optimal concentrations and conditions for each application should be determined by the user. For protocols, additional product information, such as images and references, see	Characterization Data	Available at atlasantibodies.com/products/AMAb91433
Storage Store at +4°C for short term storage. Long time storage is recommended at -20°C. Notes The antibody solution should be gently mixed before use. Optimal concentrations and conditions for each application should be determined by the user. For protocols, additional product information, such as images and references, see	Buffer	
Notes The antibody solution should be gently mixed before use. Optimal concentrations and conditions for each application should be determined by the user. For protocols, additional product information, such as images and references, see	Concentration	Lot dependent
conditions for each application should be determined by the user. For protocols, additional product information, such as images and references, see	Storage	Store at +4°C for short term storage. Long time storage is recommended at -20°C.
	Notes	conditions for each application should be determined by the user. For protocols, additional product information, such as images and references, see

Product of Sweden. For research use only. Not intended for pharmaceutical development, diagnostic, therapeutic or any in vivo use. No products from Atlas Antibodies may be resold, modified for resale or used to manufacture commercial products without prior written approval from Atlas Antibodies AB.

Warranty: The products supplied by Atlas Antibodies are warranted to meet stated product specifications and to conform to label descriptions when used and stored properly. Unless otherwise stated, this warranty is limited to one year from date of sales for products used, handled and stored according to Atlas Antibodies AB's instructions. Atlas Antibodies AB's sole liability is limited to replacement of the product or refund of the purchase price. All products are supplied for research use only. They are not intended for medicinal, diagnostic or therapeutic use. No products from Atlas Antibodies may be resold, modified for resale or used to manufacture commercial products without prior written approval from Atlas Antibodies AB Rev. December 2012
